About the authors xix

1 Principles of knowledge management 1
   Introduction 1
   What is knowledge? 1
   Tacit and explicit knowledge 3
   What is knowledge management? 4
   Knowledge management models 5
   People, process, technology and governance 9
   The ‘learning before, during and after’ model 10
   The business need for knowledge management 12
   The learning curve 14
   Benchmarking 15
   Which knowledge? 16
   Approaches to knowledge management 18
   Cultural issues 21
   Notes 23

2 The sales and marketing context 25
   The sales force 25
   The bid team 28
### Knowledge Management for Sales and Marketing

## 6 Knowledge management roles

- Knowledge manager | 95 |
- Knowledge management champion | 96 |
- Knowledge librarian | 97 |
- Community facilitator or leader | 97 |
- Subject matter experts (SMEs) and knowledge owners | 98 |
- The central knowledge management team | 99 |
- Senior sponsor | 100 |

## 7 Culture and governance

- Knowledge management, target-setting and incentives | 102 |
- The role of the manager in setting the culture | 103 |
- Dealing with inter-team competition | 103 |
- Dealing with ‘not invented here’ | 104 |
- Knowledge management expectations | 105 |
- Reinforcement | 107 |
- Note | 108 |

## 8 Case study from British Telecom: supporting a distributed sales force

*John Davies, Ian Thurlow and Paul Warren*

- Introduction | 109 |
- Understanding the users’ requirements | 111 |
- Web 2.0 for knowledge-sharing | 112 |
- Knowledge-sharing with the Semantic MediaWiki | 115 |
- Delivering information in context | 116 |
- Understanding and improving processes | 118 |
- The users’ response | 118 |
9 Case study from Mars, Inc.: knowledge management in sales and marketing

Linda Davies

Introduction 121

Toolkit 122

Global Practice Groups 123

Communities of practice 124

Knowledge exchange 125

Formal knowledge-capture 126

Go with the flow 127

Technology - the great enabler 128

Summary 128

Notes 129

10 Case study from Ordnance Survey: social networking and the transfer of knowledge within supply chain management

Graeme Smith

Introduction 132

What was the problem? 133

Silos 133

Assumptions 134

Methodology 136

Demand audit 136

Findings - 2004 audit 139

Findings - 2006 audit 144
Findings - 2007 audit 147
Was the problem due to ignoring social architecture? 148
Personal character traits 149
Knowledge transfer 149
Space 151
Reward systems 151
Power 152
Conclusion 152
Note 153
References 154

11 Setting up a knowledge management framework for sales, marketing and bidding 155
   Step 1: define the scope of your exercise 155
   Step 2: identify the key areas of knowledge that people need 156
   Step 3: for each knowledge area, define the source and user of the knowledge 156
   Step 4: define whether this knowledge can be transferred as tacit, explicit or both 156
   Step 5: if knowledge transfer is tacit, define the communication mechanism 157
   Step 6: if knowledge transfer is explicit, define the capture mechanism 157
   Step 7: define the organisation method 158
   Step 8: define the distribution and internalisation mechanism 158
   Step 9: define how you will measure knowledge management activity 159
   Step 10: define how you will manage the performance knowledge management 159

Appendix - customer buying process 161

List of figures and table

Figures

1.1 Data, information and knowledge .............................................. 2
1.2 Knowledge flow from supplier to user ....................................... 7
1.3 The enablers of knowledge management ................................. 10
1.4 The 'learn before, during and after' model .......................... 11
1.5 The link between knowledge and performance ....................... 13
1.6 The learning curve ................................................................. 15
1.7 Knowledge management and benchmarking .......................... 16
1.8 Categorisation of knowledge .................................................. 17
2.1 Flow of knowledge along the internal supply chain ................. 34
2.2 Knowledge management processes ......................................... 37
3.1 The three community types ...................................................... 70
3.2 Nested communities ................................................................. 79
6.1 Knowledge management structure ........................................... 96
7.1 Chains of KM accountability in an organisation .................... 106
8.1 Tagging a document, the user can create a tag or accept a suggestion 114
8.2 Users can search on tags or on content ................................. 114
8.3 User changes context ............................................................... 117
8.4 Opening a file in the current context ....................................... 117
10.1 Demarest’s knowledge management model ......................... 134
10.2 McAdam and McCreedy’s knowledge management model ....... 135
10.3 Process map showing hand-offs between teams and individuals 137
10.4 The sales pipeline ................................................................. 138
10.5 Knowledge learning cycle: communication to staff on the structure of the knowledge and learning pack 143
10.6 Total sales pipeline resource 2004-2006 ................................ 144
10.7 Total non-conformance 2004-2006 ....................................... 145
10.8 Total non-conformance, data supply team, 2004-2006 ......... 146
10.9 Total sales pipeline resource, data supply team, 2004-2006  
10.10 Total sales pipeline resource, data supply team, 2004-2007  
10.11 Total sales pipeline resources 2004-2007  
10.12 Total non-conformance 2004-2007  
A.1 Needs recognition and problem awareness  
A.2 Information search  
A.3 Alternatives  
A.4 Purchase  
A.5 Post-purchase evaluation
