Lynn, Richard
Race differences in intelligence
An evolutionary analysis

CONTENTS

1. The Meaning and Measurement of Intelligence 1
2. The Meaning and Formation of Races 7
3. Europeans 17
4. Africans 29
5. Bushmen and Pygmies 73
6. South Asians and North Africans 79
7. Southeast Asians 97
8. Australian Aborigines 101
9. Pacific Islanders 115
10. East Asians 121
11. Arctic Peoples 149
12. Native Americans 155
13. Reliability and Validity of Race Differences in Intelligence 167
14. Environmental and Genetic Determinants of Race Differences in Intelligence 181
15. The Evolution of Intelligence 195
16. Climate, Race, Brain Size, and Intelligence 205
17. The Evolution of Race Differences in Intelligence 223
   Appendix: Intelligence Tests 245
   References 249
   Name Index 305
   Subject Index 315
Figures and Tables

Frontispiece. World distribution of the intelligence of indigenous peoples

Figure 1. Migrations of modern humans, beginning in Africa about 100,000 years ago

Table 2.1. Gene frequencies (percentages) of cystic fibrosis and PKU in Europeans, sub-Saharan Africans, and East Asians

Table 3.1. IQs of indigenous Europeans
Table 3.2. IQs of Europeans outside Europe
Table 3.3. Intelligence of European university students
Table 3.4. Brain size (cc) and intelligence in Europeans and South Asians

Table 4.1. IQs of Africans in sub-Saharan Africa
Table 4.2. IQs of African and European university students in Africa
Table 4.3. IQs of Africans in the Caribbean and Latin America
Table 4.4. IQs of African Americans in the United States
Table 4.5. IQs of Africans in Britain
Table 4.6. IQs of Africans in the Netherlands  52
Table 4.7. Primary abilities of Africans  54
Table 4.8. Musical (MQ) and Rhythm (RQ) Quotients of African Americans  57
Table 4.9. Correlations between reaction times and IQ and differences between Africans and Europeans in reaction times.  59
Table 4.10. Reaction times and EEGs of Africans and Europeans  60
Table 4.11. Brain size (cc) of Europeans and Africans  63
Table 4.12. IQs of Europeans, African-European hybrids, and Africans  64
Table 4.13. Heritability of intelligence of African Americans  66
Table 6.1. IQs of South Asians and North Africans  81
Table 6.2. IQs of South Asians in Britain and Australia  83
Table 6.3. IQs of South Asians and North Africans in Continental Europe  85
Table 6.4. IQs of Indians in Africa, Fiji, Malaysia, and Mauritius  88
Table 6.5. IQs of South Asian and North African high school and university students  90
Table 6.6. Brain size (cc) of Europeans and South Asians  91
Table 6.7. Intelligence in Israel  93
Table 7.1. IQs of Southeast Asians  98
Table 7.2. IQs of Southeast Asians in the United States and the Netherlands  99
Table 7.3. Brain size (cc) differences of Europeans and Southeast Asians  100
Table 8.1. IQs of Australian Aborigines  103
Table 8.2. IQs of hybrid Australian Aborigines and Europeans  105
Table 8.3. Brain size (cc) of Australian Aborigines and Europeans 109
Table 9.1. IQs of New Zealand Maoris 116
Table 9.2. IQs of Pacific Islanders 118
Table 9.3. IQs of Europeans, Chinese, and Pacific Islander hybrids 119
Table 10.1. IQs of indigenous East Asians 124
Table 10.2. IQs of East Asians in the United States 134
Table 10.3. Further Studies of East Asians outside East Asia 137
Table 10.4. IQs of East Asian children adopted by Europeans 140
Table 10.5. IQs and brain size (cc) of East Asian-European hybrids 141
Table 10.6. Differences between East Asians and Europeans in reaction times 143
Table 10.7. Differences between East Asians and Europeans in visual memory 144
Table 10.8. Brain size (cc) differences of Europeans and East Asians 145
Table 11.1. IQs of Arctic Peoples 151
Table 12.1. IQs of Native Americans in North America 157
Table 12.2. IQs of Native Americans on the Draw-a-Man test 158
Table 12.3. IQs of Native Americans in Latin America 159
Table 12.4. IQs of Native American-European hybrids 161
Table 12.5. Brain sizes (cc) of Native Americans and Europeans 162
Table 12.6. IQs of Hispanics in the United States 164
Table 13.1. Summary of race differences in intelligence 169
Table 13.2. National IQs and attainments in math and science 173
